Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12,14-16,20-31,34-36,38-40 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Walker et al (3146971).

See windshield 42 and the plane goes at least mach .98.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 33 is rejected under 35 U.S.C. 103(a) as being unpatentable over Walker et al in view of Chaumel et al (6213428).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the aircraft of Walker with radar as taught by 36 of Chaumel et al.

1. Claims 13 and 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Walker et al in view of Fox (4741497) .

It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the window of Walker et al out of plural sections as taught by Fox since it is a well known construction.

2. Claims 17-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Walker et al in view of Rudolph (5529263) .

It would have been obvious to one having ordinary skill in the art at the time the invention was made to use turbofans, canards and a waisted fuselage on Walker et al as taught by Rudolph since they are well known features of similar aircraft.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
